Fox missions persona 4

This article is about the Character Persona 4. For the Persona 5 character, whose codename is Fox, see Yusuke Kitagawa. The Fox is a character without a player in Persona 4. It plays an important role in the protagonist and the exploration of the research team of the Midnight Channel. Appearances[edit | edit source] Design[edit | edit source] The fox has orange fur and various scars on its right eye, forehead, back and left leg. It also wears a red apron with a heart pattern. Personality[edit | source editing] The fox is loyal, serious and committed to his task. It is always found at Tatsuhime Shrine, hoping that people can come and give sacrifices if their wishes, written on ema leaves, are granted. Profile[edit | edit source] Persona 4[edit | edit source] The Fox is at the Tatsuhime Shrine in the Central Shopping District from May 5. Apparently Fox had made the sanctuary his home, and is concerned with the dilapidated state of the area. It believes that if the wishes of people written at the EMA are granted, more visitors will come to the shrine and pray, and the sanctuary will be more prosperous. De Vos then begged the protagonist to fulfill the wishes written on the ema. When the main character agrees, the Hermit Arcana Social Link is unlocked. The Social Link rank rises when a wish is successfully fulfilled. Accepting a wish does not consume all day, but reporting a successful wish-awarding session to the fox will. Unlike most other social links, it can be advanced during a rainy day. The fox apparently also had a penchant for the main character. It follows him when the Search Team entered the Midnight Channel, and can also be found in random areas within the dungeons, ready to heal the party's SP with a sheet collected from the shrine. However, this healing service is very expensive. Ranking up the Hermit Social Link will be a discount based on how far along the Social Link is ranked. At the end, the protagonist manages to fulfill all the wishes of the EMA, and the sanctuary offertory box is filled with money from people who have expressed their gratitude. However, the Link does not hit a max grade upon completion of the final request. The main character must make an additional visit to the sanctuary and also have maxed Expression to understand the wishes of the fox. On that next visit, the money disappeared from the sacrificial box, causing the main character and the fox to raise the alarm. However, it was revealed that the money had been used to improve the conditions of the sanctuary, with most structures covered in a golden sheen. Seeing the population volunteer to offer to bestow their wishes greatly pleases the fox, and it gives the protagonist his own ema as the social link maxes out. With Sanctuary well renovated, the main character can now pray at the shrine to get a boost to get a social link of their choice. This still consumes their daily activity, but it allows the player to help promote a Social Link, especially during rainy days. In the epilogue, the fox had apparently given birth to three fox cubs. Persona 4 The Animation[edit | edit source] In anime, the Fox meets Nanako for the first time during a rainy day on August 6. Nanako gives the Fox her Loveline umbrella to keep it out of the rain, and leaves. Fox stays at the umbrella until it was blown away by the wind and destroyed. To return Nanako's kindness, on August 7, de Vos approached Yu and gave him an ema search to help Shu Nakajima. This begins a long chain of ema quests in the coming weeks, including those of Hisano Kuroda and others. At the end of the episode, the Fox collects all the yen that Yu helped to bring to the shrine, and during the credits presents Nanako with a new Loveline umbrella purchased with the sanctuary yen. Ema Requests[edit | edit source] Below are the requests that can be taken to increase the Social Link rank. Most quests take a day or two, depending on the choices the player makes. Some requests also require items.
